The Chatham County Zoning Administrator shall have the authority to issue a permit subject to the following conditions. Upon a finding by the Zoning Administrator that such action may be detrimental to the surrounding neighborhood, the Zoning Administrator shall deny the petition. Such use shall be permitted subject to the following conditions.																
a. Such mobile units shall be allowed only for use by schools or churches, where permitted.																
b. Any permit issued under these conditions shall be valid for only 12 months with option to renew for an additional 12 months and the residents adjacent to property be notified that a mobile structure would be located in their neighborhood; a "B" to be placed by the zone to indicate that the petition would go before the Zoning Board of Appeals.																
c. Placement of the mobile unit must be compatible with the established development pattern so as not to adversely affect the adjoining and surrounding properties.																
d. The mobile unit must be placed on a tract of land at least 20,000 square feet in size.																
e. When a mobile unit is placed upon an unoccupied lot, it shall be considered the principal use upon such lot and shall comply with all regulations established for the district and for the use to be placed within the unit.																
f. The mobile unit shall be provided with skirting completely enclosing any open space that exists between the ground and the bottom of the mobile unit. Such enclosure shall be visually compatible with the neighborhood.																
g. The mobile unit shall be provided with a foundation designed to support the maximum load during all seasons and approved by the building inspector.																
h. No additions shall be made to the mobile unit.																
i. Steps that are compatible with conventional residential construction shall be provided to all exterior entrances.																
j. The mobile unit shall be located on the tract of land in a manner consistent with the location of buildings on adjoining lots.

a. Site Plan Review. A site plan shall be submitted for review and approval by the MPC pursuant to the provisions of Sec. 4-6.5, Planned Development District. The MPC certified site plan shall be forwarded to the Chatham County Commissioners by the Zoning Administrator for final action prior to the issuance of any permits or a business license for the proposed site. No use or development shall be allowed on the site that is not shown in the approved site development plan. Such plans shall include: gross acreage, number, type, and location of buildings, parking and loading areas, service drives, building heights, open space, setbacks, buffer strips, location and design of fence and materials of construction, and such other information as may be reasonably required by the reviewing agencies.																
b. Buffers and Screens. A screening fence shall be erected entirely around the use. The screening fence shall be constructed of either brick, stone, masonry units, wood or other similar material, excluding tin, plastic, doors, woven wire, salvage material or other similar products. A minimum of a twenty-five (25) foot wide irrigated landscaping buffer or a natural buffer of at least fifty (50) feet in width shall be established along the exterior of the screening fence. Where such operation has frontage on an expressway, major arterial, or secondary arterial, or faces a residential area, the required screen shall be not less than eight (8) feet in height nor greater than twelve (12) feet. On all other sides the screen shall be not less than six (6) feet in height nor greater than twelve (12) feet. No materials shall be stored or stacked above the height of the screening fence.																
c. Burning. There shall be no on-site burning of material except within a furnace or incinerator approved by the County Health Department and appropriate State regulatory agencies.																
d. Access. Access to salvage yards shall be only from a collector street, secondary arterial, or major arterial.																
e. Separation from other Uses. Salvage yards shall be separated from the following uses by the distances indicated, as measured in a straight line:																
(1) 500 feet from a dwelling unit.																
(2) 500 feet from residential, conservation and institutional zoning districts.																
(3) 500 feet from B-N and RB-1 zoning districts.																
(4) 100 feet from any other business zoning district.																
(5) 100 feet from the property line of any property located within an industrial or manufacturing zoning district, on which a conforming use is located which is also allowed within B-N, B-C, or B business districts.																
f. Dismantling activities. All dismantling, shredding, and crushing operations, of the use shall be setback at least one-hundred (100) feet from any property line. Such activities shall comply with the Chatham County Noise Ordinance requirements.																
g. Nonconforming salvage yards:																
(1) When a salvage yard exists prior to the effective date of this ordinance and does not comply with the operational and design standards outlined above, the activity shall be deemed to be nonconforming.
