

## US 80 Bridges Study – Questionnaire

The CORE MPO is conducting a study of US 80 to evaluate alternatives for improvements to the Bull River and Lazaretto Creek bridges and potential bicycle and pedestrian connections. The study is to determine the feasibility of:

- Replacing or modifying the existing bridges to accommodate wider lanes and shoulder,
- Constructing bicycle and pedestrian facilities that link to Tybee Island and McQueen’s Island Trail,
- Providing additional capacity at specific locations to provide congestion or incident relief,
- Improving conditions of flood prone areas.

Public participation is a very important part of the study and we must hear from you to develop the best alternative. Please take a few minutes to answer the following questions, and remember, your opinion counts!

### In your opinion, are improvements needed to the US 80 corridor?

**Yes/No** (circle one). **Why or why not?**

---

---

---

---

**Please rate the following issues along US 80 to show your level of concern. Rate each issue on a scale of 0 to 5, with 0 representing no concern and 5 representing highest level of concern.**

Issue	Rate
Traffic Congestion	_____
Narrow Bridges	_____
Lack of Shoulders on Causeway	_____
Overall Safety	_____
Flooding	_____
Bicycle Access	_____
Pedestrian Access	_____
Turtle crossing	_____

*Please continue on back.*

**What other comments do you have about this study?**

---

**What is your primary relationship to Tybee Island?**

*Full time resident* \_\_\_\_\_ *Part time resident* \_\_\_\_\_ *Day visitor* \_\_\_\_\_

*Tourist (staying more than 1 day)* \_\_\_\_\_ *Don't usually go to Tybee* \_\_\_\_\_

**How did you hear about today's meeting?** \_\_\_\_\_

If you would like to be included on a mailing list for future input on the study, please provide your email address below. If you do not have an email address, please provide your physical address or fax number.
