

**HISTORIC DISTRICT BOARD OF REVIEW**  
**AWNING FABRIC POLICY**  
**Policy Adoption: December 10, 2014**

The Historic District Board of Review (the Board) determined that it is possible that both acrylic and vinyl awning fabrics can be visually compatible on a case-by-case basis. The determining factors with regard to whether a fabric is visually compatible are: reflectivity and texture.

The Board determined that the following awning fabrics (or their equivalent) are **visually compatible** and are permitted within the Savannah Historic District:

1. Sunbrella Awning/Marine, Woven Acrylic Fabric
2. Sattler, The HighTex Company, 100% Premium Acrylic Fabric
3. Herculite Natura, High Performance Awning Fabric
4. Dickson Solar Protection Fabric
5. Or equivalent (to be reviewed and approved by staff)

The Board determined that the following awning fabrics (or their equivalent) are **visually incompatible** and are not permitted within the Savannah Historic District:

1. Patio500, Vinyl Laminated Polyester Fabric
2. Ultrashade Plus, Laminated Vinyl Fabric
3. Soltex, Extrusion Coated Fabric with a Polyurethane Top Coat
4. Preconstraint Ferrari, Biface Varnish Finish Fabric
5. Coast Line Plus, PVC Composite Fabric
6. BTF-19, PVC Coated Polyester with PVDF/Acrylic Finish
7. Weathertyte Advanced Awning Fabric, High-Performance Vinyl Substrate Fabric
8. Or equivalent (to be reviewed and approved by staff)
