

The Chatham County - Savannah Metropolitan Planning Commission is seeking qualified applicants for the position listed below.

GIS Analyst: A Bachelor's Degree in Geography, GIS, Planning or a related field with two to five years of professional GIS experience is required. The GIS Analyst will work under the SAGIS Director to provide geospatial analysis, application design, implementation, and database management required for SAGIS and partner operations. The position will be responsible for publishing map services, GIS application development, spatial based mapping and analysis, creating and updating geodatabases, web site design, and other GIS tools and applications. Experience with ArcGIS, advanced knowledge of geographic concepts, and strong organizational skills are required. Experience with custom GIS applications, ArcGIS Server, scripting and automation, and enterprise geodatabase management is preferred. Technical writing, excellent public speaking skills, and the ability to collaborate across agencies are essential. Full job description is attached.

Send resume and cover letter to: Lara Hall, SAGIS Director, Chatham County-Savannah Metropolitan Planning Commission, P. O. Box 8246, Savannah, GA 31412-8246; email: hall@thempc.org with the following subject line: GIS Analyst. Position open until filled; first review of applications on March 1, 2021. Salary will be commensurate with experience and qualifications.

Chatham County- Savannah Metropolitan Planning Commission

Position Description

Position Title: GIS Analyst

Department: SAGIS

Reports to: SAGIS Director

FLSA: Exempt

Date Updated: 2/10/2021

General Position Description:

The GIS Analyst will be a part of a team responsible for providing geospatial analysis and customizations to Savannah Area GIS (SAGIS) customers, partners and the general public. Responsibilities include GIS database administration, creating and maintaining custom GIS applications, updating datasets, creation of datasets, maintaining GIS services and other related activities.

Specific Duties:

- 1) Participate in data production, editing and automation of data layers maintained by SAGIS
- 2) Compile/maintain metadata for data layers maintained by SAGIS
- 3) Provide GIS database administration and regular maintenance requirements
- 4) Develop and update custom scripts to aid in SAGIS activities
- 5) Assist staff with GIS programming requirements and application development
- 6) Participate in meetings and events for GIS users
- 7) Assist the MPC, County and City staff with their GIS needs

Minimum Employment Standards:

- 1) Bachelor's Degree in Geography, GIS, Planning or related field
- 2) Minimum of two years of professional experience in GIS
- 3) Experience with geodatabase creation and maintenance
- 4) Experience with building GIS applications using Esri technology
- 5) General understanding of GIS principles and terminology

Required Knowledge, Skills, and Abilities:

- 1) Knowledge of desktop and online geographic information system programs and operations
- 2) Knowledge of application development principles and best practices
- 3) Knowledge of database management and other computer principles as they relate to GIS
- 4) Knowledge of personal computer operation, terminology, hardware, software and operating systems
- 5) Ability to assist with the operation and improvement of GIS applications
- 6) Ability to prepare effective written and oral reports and presentations of work
- 7) Ability to analyze and interpret mapping systems and technical data
- 8) Familiarity with local and wide area computer networks, internet, and remote access computer systems
- 9) Ability to organize and complete multiple concurrent projects in a timely manner
- 10) Ability to read a variety of informational documentation, directions, instructions, and procedures
- 11) Ability to establish and maintain effective working relationships staff and the general public
- 12) Knowledge of public administration principles and practices

Accountability:

1. Maintains realistic schedule and meets deadlines
2. Able to explain and discuss GIS systems
3. Reports to SAGIS Director on all assigned projects
4. Maintains effective working relationships
