Economic Development

The City of Savannah is built on a history of commerce, innovation, and prosperity. Founded by James Oglethorpe in 1733, Savannah was originally established to increase trade with other colonies. Savannah's business climate was

as accommodating as its weather. Settlers quickly discovered that Savannah's soil was rich, and the climate was favorable for the cultivation of cotton and rice. Plantations and slavery became highly profitable systems for whites in the neighboring L

whites in the neighboring Lowcountry of South Carolina; therefore, Georgia, the last free colony, legalized slavery.

Due to the economic renaissance brought on by the exportation of cotton, residents built lavish homes and churches throughout the City of Savannah that reflected the wealth of the times. With the growth of trade, especially after the invention of the cotton gin on a plantation outside of Savannah, the city became a rival of Charleston as a commercial port. Many of the world's cotton prices

were set on the steps of the Savannah Cotton Exchange in the 1800s.

Today, Savannah has a diverse economy that includes manufacturing, service, government and military, tourism, port-

related distribution, and a burgeoning number of creative and technical businesses. Savannah has an available workforce and exceptional training opportunities, within an hour's drive. Savannah also enjoys a strategic coastal location.

4.1 Introduction

The Economic Development Chapter of the Comprehensive Plan is an inventory and assessment of the community's economic base, labor force characteristics, and economic development opportunities and resources. It attempts to determine the community's needs and goals in light of population trends, natural resources, housing, and land use in order to develop a strategy for the economic well-being of the community.

The economic development policies and activities of the County and City are to encourage development and expansion of businesses and industries that are suitable for the community. Factors to consider when determining suitability include job skills required; long-term sustainability; linkages to other economic activities in the region; impact on the resources of the area; and prospects for creating job opportunities that meet the needs of a diverse local workforce.

4.2 Regional Economy

The region has a diverse economy that includes manufacturing, higher education, government and military, tourism, port-related distribution, and a burgeoning number of creative and technical businesses. The region has an available workforce and exceptional training opportunities, with more than 50,000 college students all within an hour's drive of the coast, however, the unemployment rate in the region is currently higher than the national average.

Chatham County and Savannah are the hub of an 11-county region that features a diversified workforce and growing economy. The region is not only a top tourist destination but also an ideal place for businesses and families. People want to live and work in the Coastal Empire.

4.3 Chatham – Savannah Economy

Over the past 25 years, the City of Savannah and Chatham County have experienced a boom of economic activities. Energized by the upsurge in tourism in the mid 1990s and other positive economic factors, the city and county have entered the 21st century in the

enviable position of being able to use the past to enhance the present and future. Savannah's Landmark Historic District is experiencing commercial revitalization that is spreading southward into the Victorian District, eastward toward the islands. northward on to Hutchison Island, and finally westward toward the industrialized areas of Savannah.

However, the severe economic recession that hit the entire country beginning in 2008 also effected Chatham County. However, as Savannah and Chatham County again begin to flourish, the need for a trained workforce and higher paying jobs rises. While there are more employment opportunities today, many of these do not pay wages necessary to support a family. As the City and County's economy continues to diversify, a better balance will be struck between job opportunities and wages.

4.3.1 Manufacturing

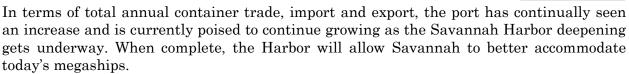

Chatham County and Savannah enjoys a diversified manufacturing base. Products range

from paper and forest products to chemicals, from construction equipment to food processing, and from corporate jets to drill bits. The significance of the manufacturing segment of the local economy cannot be overstated. Some of the largest employers and highest wage earning workers are within the manufacturing segment.

4.3.2 Port

The Port of Savannah is the largest single terminal container facility in North America as well as the busiest container port in the U.S. Southeast. It includes over 1,400 acres and statewide, the port contributes to over 369,000 jobs throughout the State annually and contribute \$20.4 billion in income, \$84.1 billion in sales and \$1.3 billion in state and local taxes to Georgia's economy.

The Georgia Ports Authority (GPA) operates two deepwater terminals in Chatham County, the Ocean Terminal and the Garden City Terminal. The port serves as a major distribution hub due in part to location. The port expansion and ready access to two major interstate highways has resulted in the location of major warehouses in Chatham County.

The success of Georgia's ports translates to employment opportunities for each of Georgia's 159 counties. Port-related expansions announced during Fiscal Year 2015 will bring more than \$619 million in investment, 4.3 million square feet of development and approximately 3,000 new jobs to Georgia (Georgia Ports Authority).

- Two Railroads, Norfolk Southern & CSX, On Terminal
- Over 3 Million Ft² of Warehouse Space Available Within 30 Miles of Port
- Immediate Access to Two Major Interstates: I-16 (East/West) and I-95 (North/South)
- 9,700 Feet of Contiguous Berth Space
- Four-hour Drive to Major Markets: Atlanta, Orlando and Charlotte
- Largest Concentration of Import Distribution Centers
 on the East Coast

4.3.3 Creative & Technical Businesses

A burgeoning group of small to large creative and technical firms have chosen Chatham County and Savannah for their location. To support and encourage this growth, organizations such as the Creative Coast were formed through collaborative private and public partnerships to leverage the area's unique blend of bright talent, leading-edge technologies, and exceptionally high quality of life – all to stimulate the growth of entrepreneurial, creative, and technical business in the area.

Since the development of the Creative Coast in 1997, numerous organizations and efforts have come together to better meet the needs of the creative community that is Savannah. By focusing on creative entrepreneurialism, technology, new media, art, music, and food culture these groups are helping to support and shape the future of Savannah.

4.3.4 Military & Government

The Fort Stewart/Hunter Army Airfield military complex is a major sector in Savannah and

Chatham County's economy. Hunter Army Airfield (HAAF) is located inside the city limits of Savannah. Its mission is to provide air transport to Fort Stewart, home base of the 3rd Infantry Division, located in nearby Liberty County covering nearly 285,000 acres. HAAF has the longest army runway on the east coast, and facilities on the 5,400-acre airfield can handle the largest military aircraft. HAAF is accessed by rail and a major road network. Fort Stewart is located 40 miles from Savannah, in Liberty, Bryan and portions of Evans, Long, and Tattnall Counties.

Fort Stewart and HAAF together are one of Coastal Georgia's largest employers. The ratio of military to civilian employees is approximately six to one, with 22,422 officers and enlisted military and 3,891 civilians employed at both installations. Fort Stewart accounts for nearly three-fourths of the military employment in the area.

In 2015, there were 22,422 officers and enlisted military and 3,891 federal civilian employees

totaling to 26,313 workers. Total payroll for both bases is estimated at well over one billion dollars and with an annual financial impact of four to five billion dollars. Fort Stewart and Hunter AAF continue to play an important role in the regional economy.

	Daily Working Population										
	2012 2013 2014 2015										
Military	27,314	23,149	23,315	22,422							
Civilian	4,077	4,077	3,883	3,891							
Total	27,226	27,226	27,198	26,313							

Table 4.1: Daily Working Population at FS/HAAF

The strong presence of military in the area further increases the demand for businesses in retail, food service, real estate, education, and other sectors.

4.3.5 Tourism

Chatham County and Savannah have a well-earned reputation as a favorite tourist destination, and the atmosphere and activities that draw these visitors give it vibrancy unmatched by most coastal areas. The Savannah National Landmark Historic District is the largest of its kind in the United States. To that end, in 2014 over 13 million tourist visited savannah. in large part to view the historic architecture, monuments and the coastal area's natural beauty.

4.3.6 Aerospace

Aerospace manufacturing has been a key industry in Savannah since Gulfstream Aerospace Corporation planted roots in 1967. As the largest aerospace manufacturer in the Southeast, Gulfstream employs nearly 10,000 workers locally. In addition, more than 30 aerospace-related companies are located in Savannah, making the area a true aerospace supplier cluster.

Savannah's aerospace industries enjoy the same benefits as other businesses in the city's advanced manufacturing sector, including state and local incentives, easy access to

the Port of Savannah, the Savannah/Hilton Head International Airport and nationally recognized workforce training programs, among others. (Savannah Economic Development Authority)

4.4 Assessment

4.4.1 Economic Base

The City of Savannah and Chatham County has a diverse economic base similar to that of many coastal cities. Employment is highest in the service, retail trade, and manufacturing

sectors. The largest manufacturing facilities in the City and County produce textiles, paper products, chemicals, transportation equipment, and food products. Retail trade establishments are located throughout downtown and the rest of the County, in shopping centers and on individual sites, and provide for the daily needs of area residents. Regional shopping centers attract customers from throughout the southeast.

Major employers in the service sector include the health care industry, the tourist industry, and educational institutions. Candler, St. Joseph's and Memorial Hospitals are the most visible component of the City's health care industry. Additional health care jobs are provided at clinics, nursing homes, laboratories, and the offices of doctors, dentists and other health care practitioners. The healthcare field will continue to grow in the Chatham County region due the growth in numbers of the aging population.

Major educational institutions providing employment include the

Savannah State University (SSU), South University, Armstrong State University (ASU), Savannah Technical College, Savannah College of Art and Design, and the Chatham County Board of Education. Major businesses providing support for the tourist industry include hotels, restaurants, gift shops, and museums.

4.4.2 Labor Profile

The following pages detail the 2015 labor profile for Chatham County for the following topic areas as reported by the Georgia Department of Labor:

- Population
- Employment Trends
- Industry Employment Numbers
- Largest Employers
- Commuting Patterns
- Education of the Labor Force

Note: *Denotes confidential data relating to individual employers and cannot be released. These data use the North American Industrial Classification System(NAICS) categories. Average weekly wage is derived by dividing gross payroll dollars paid to all employees - both hourly and salaried - by the average number of employees who had earnings; average earnings are then divided by the number of weeks in a reporting period to obtain weekly figures. Figures in other columns may not sum accurately due to rounding. All figures are 4th Quarter of 2015.

4.5 Issues & Opportunities

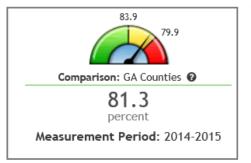

The loss of manufacturing jobs to overseas companies is a matter of national concern. A greater, but less publicized, concern is the loss of skilled technical jobs to countries that

place a high value on education thereby producing an abundance of engineers, mathematicians, scientists, and other highly-trained computer professionals. The dominance of American universities focusing on scientific research and materials development, handling, and distribution has been a strength that has enabled the national economy to remain competitive in the world even as manufacturing jobs relocated to other countries.

Chatham County appears to be well situated for the challenge to produce highly skilled engineers and scientists who will be critical to the economic health of the nation and of the region. The unique

educational-industrial partnerships that the Savannah Economic Development Authority has promulgated, the technical thrust of the Savannah College of Art and Design and Savannah Technical College, the Georgia Southern University Logistics and Intermodal Transportation (LIT) program, as well as the universities in the area assist in producing a skilled professional base.

While the facilities for tertiary education appear to anticipate the future challenges, the kindergarten through twelfth grade (K-12) facilities need additional support. Approximately 81.3 percent of students within Chatham County graduate high school within four years of their first enrollment in 9th grade indicating that almost 19 percent of the residents of Chatham County do not have a high school diploma.

The Savannah Chatham County Public School System continues to make strides by replacing aging facilities with new, modern schools and technologies and have placed an emphasis on Science, Technology, Engineering and Mathematics (STEM).

Additionally, the Live Oak Library system adopted a progressive Facilities Plan to build and staff libraries throughout its three county

service area. These programs are critical to the economic vitality of the region and will be successful only if the residents of the region make the connection between a strong educational system and the region's economic well-being.
