WHAT ABOUT THE CORRIDOR WORKS WELL?

Highway 21 connects Effingham residents to all areas of Savannah without a lot of different roads.

WHAT ABOUT THE CORRIDOR DOESN'T WORK WELL?

Major influx of people moving into west Chatham and Effingham County has caused major traffic issues along Highway 21 near Highway 30 & I-95. Traffic on I-95 in the afternoons is extremely dangerous as lanes on I-95 become turn lanes.

WHAT ARE YOUR IDEAS FOR IMPROVING THE CORRIDOR?

More lanes or making sure traffic lights allow for more traffic to pass thru on green on Highway 21. Build another road from Effingham to Chatham on the eastern side of the county. Highway 21 is only access road to Chatham on the eastern side - Highway 50 in the middle & 204 on the southside

The CORE MPO is conducting a study of the SR 21 corridor between Effingham County and Savannah. The purpose of this study is to develop a concept that will improve capacity along the corridor, reduce congestion, and improve safety while maintaining the character and cohesion of the community.

There are three primary sections in the study area, shown on the map below:

Northern Section

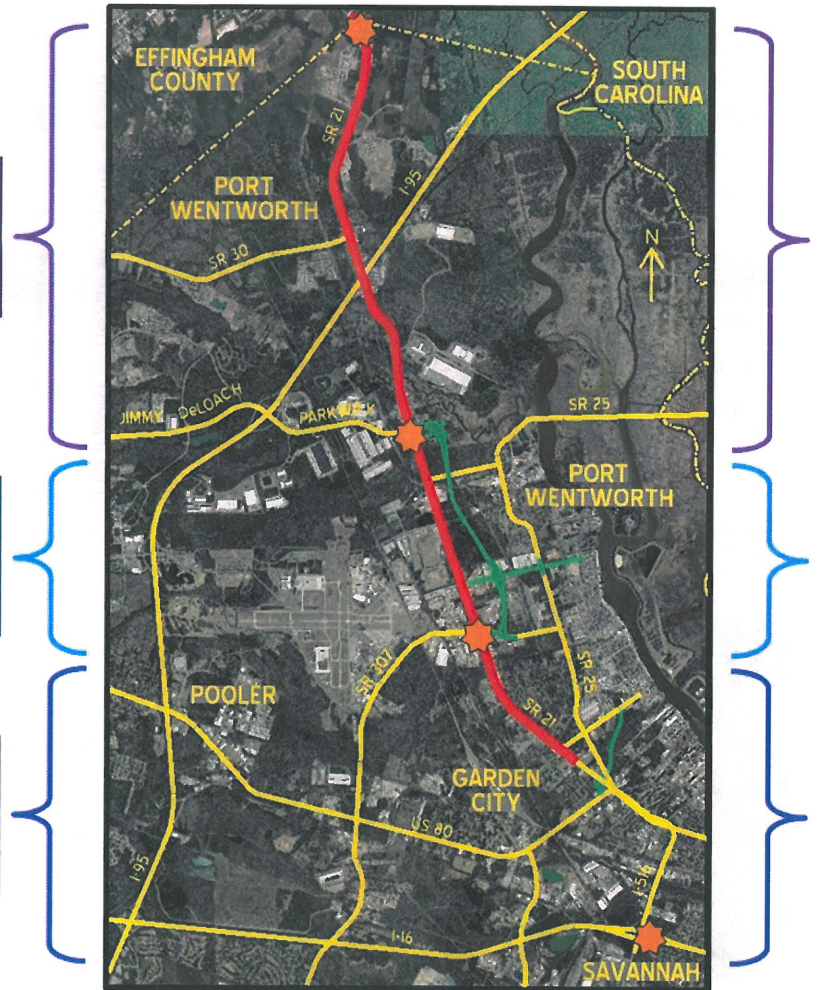

Effingham County to Jimmy DeLoach Parkway

Central Section

Jimmy DeLoach Parkway to SR 307 (Bourne Avenue)

Southern Section

SR 307 (Bourne Avenue) to I-516/Savannah

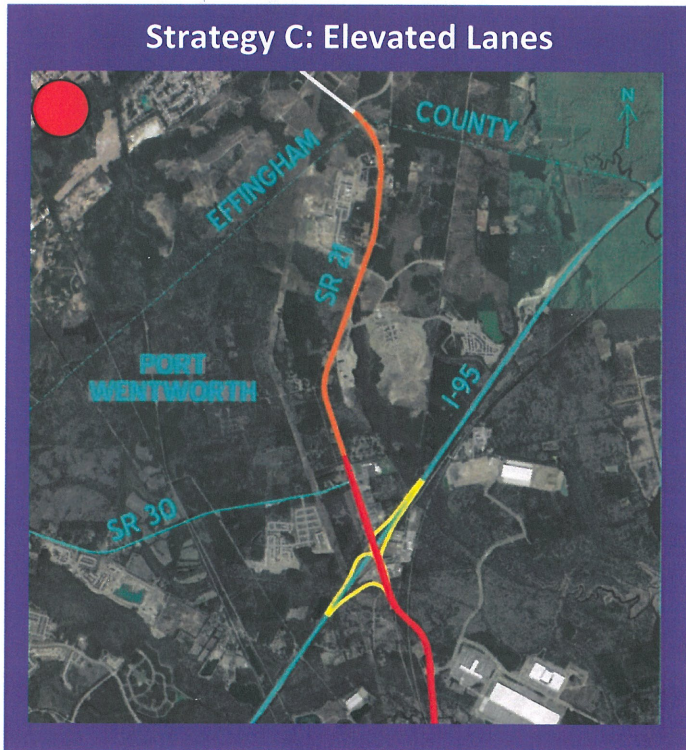

In each section, one or two improvement strategies have been carried forward for further evaluation. The best alternative would combine strategies from each section to produce a single, comprehensive concept.

Public participation is a very important part of the study and we would like to hear from you to develop the best alternative. Please take a few minutes to answer the following questions – your opinion counts!

Please rank the importance of the following in each section:

COMMENTS:

(1) Because through traffic is removed from Hwy 21 in GC, this will greatly affect day population revenue for local businesses. How can the local community continue benefit from or capture this day pop./through traffic revenue

(2) IF ~~the~~ toll is an option ~~how~~ will the local municipalities receive revenue generated by the toll?
