

PETITION TO THE CHATHAM COUNTY ZONING BOARD OF APPEALS (110 East State Street, Savannah, GA 31412)

We, the undersigned, are concerned residents of the Stonebridge at Berwick neighborhood who urge the Zoning Board of Appeals to deny the requested variance to increase the allowable height of the proposed structures to be located at 270 Berwick Blvd and covered in file ZBA-0424-000468. The existing height limit was established to ensure that all development maintained a consistent look and feel to the residential neighborhood that Stonebridge is a part of. It is our position that allowing buildings to be built that are 56 feet tall would not be in keeping with that consistent look and feel. The existing homes in Stonebridge are made up of single family homes consisting of single-story and two-story structures.

PETITION TO THE CHATHAM COUNTY ZONING BOARD OF APPEALS (110 East State Street, Savannah, GA 31412)

We, the undersigned, are concerned residents of the Berwick Plantation neighborhoods who urge the Zoning Board of Appeals to deny the requested variance to increase the allowable height of the proposed structures to be located at 270 Berwick Blvd and covered in file ZBA-0424-000468. The existing height limit was established to ensure that all development maintained a consistent look and feel to the residential neighborhood that Berwick Plantation is a part of. It is our position that allowing buildings to be built that are 56 feet tall and 42 feet tall would not be in keeping with that consistent look and feel. The existing homes in the Berwick Plantation neighborhoods are made up of single family homes consisting of single-story and two-story structures.
