

The property at 309 W Henry St in Savannah Ga is owned by Mr Virgil L Scott. It is in a sad state of affairs because of deferred maintenance and bad repairs. The windows are in particular need of repair and replacement.

As of now, our plan is to replace 7 complete units, and repair all others if possible. Over the years, mullions on many of these have rotted away, and others have undergone substandard repairs that have rendered them unsalvageable.

We propose to make the 7 new units from eucalyptus and to resemble the existing as close as possible. Meeting rails will overlap, and the glass in the lowers will be 1 ½ times the length of the glass in the uppers (as they always have been). The light pattern is 6 over 6. They will be glazed with Sarco Type M putty glazing. There will be no balance system as there never was one.
