

Telford Adams 4/9/26

Petition Request

* Description / Scope of Work

- During a 2/7/26 site visit between members of the Savannah MPC team and APCO S.E. (G.C.) we discussed the overall condition of the existing railing assembly (See photos attached).
- These photos show the extent of the damage as a result of weather, termites, sun exposure and overall age of the wood and because of the poor condition pose a potential life safety concern as these patios will be accessible and used by the elderly residents after all repairs are complete.

* Proposed - Scope of Work

- Remove and Replace no less than 75% of the existing railing assembly with like materials and appearance as existing.
- Retain and Reuse 25% of the existing railing assembly.
