

Porch Plan and Rehabilitation

Porch: Dimensions: 18 ft long with a width of bling. Will be restored with 2x4 treated lumber from home depot, also additional lumber "all" treated wood of 2x6 and 1x2 and trim made from same distributed to complete the original historic look

Steps: Dimensions; 5 ft ^{length} wide and 41 inches wide made from the existing concrete that's in good condition so I will not have to restore just clean surface.

1706 OGEE CHEE RD.

Siding: My Plan to remove old siding / or replace siding.

I will be using $3\frac{1}{2}$ original siding like on photos in picture.

Siding will come from / came from Guerry Lumber Treated wood.
