

Property Address: 511 E 36th Street
Savannah GA 31401

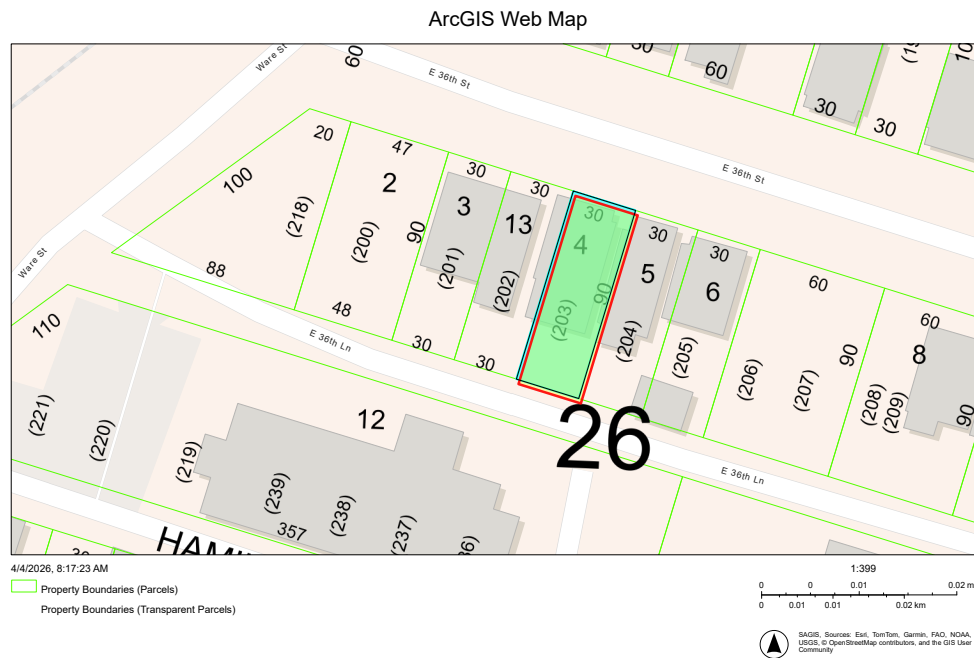

Project: Lattice Screen Above Fence - 2 ft

Project Description: Existing 6ft fence on shared property line had additional two feet of lattice added above the fence for native vine plantings, to increase shaded area of yard and back of house, and to increase privacy for the yard.

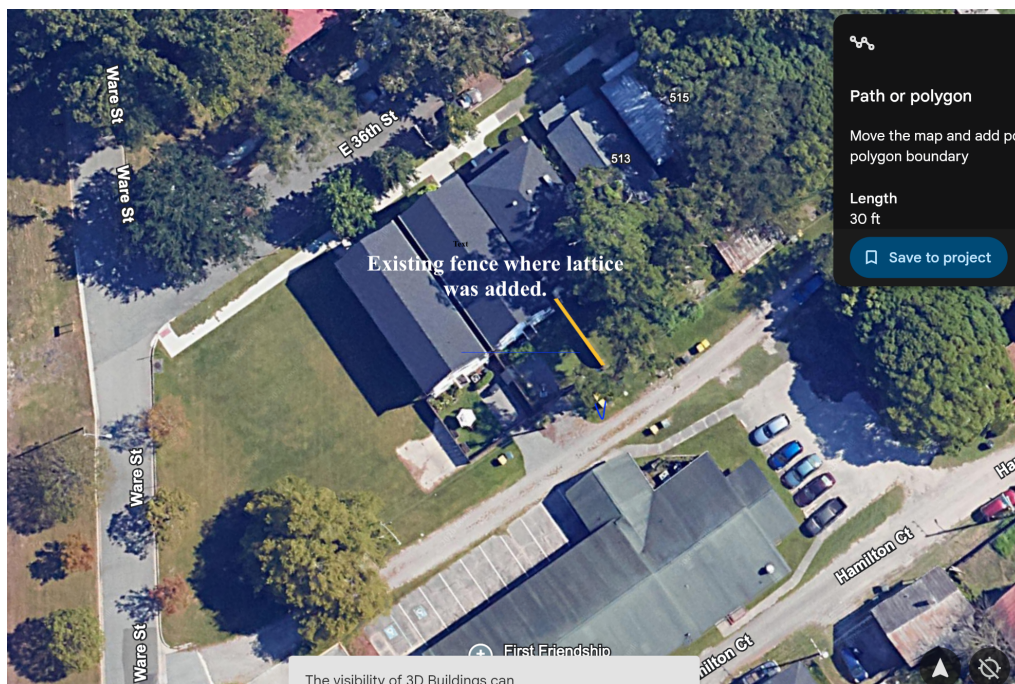

Photos of completed work:

Lattice is 2 feet high in addition to the existing 6ft fence.

Lot is 30 feet wide and 90 feet deep. The section of fence that had latticed added was 24 ft long and the lattice is 2 ft high, a total height of 8 ft.

Existing fence line that was altered is 30 ft. in length. 24ft of lattice length was added.

Materials and dimensions of materials:

2 4x8 ft lattice. Lattice panels were ripped and trimmed to 2 ft x 6 ft. 4 2 ft x 6 ft panels were used.

Quickrete was used to cement 5 posts into two 2' deep holes.

5 4x4x10 pressure treated ground contact posts were dug 2 ft down and cemented. 8 ft above and 2 ft below.

Native coral honeysuckle will be planted to trail up lattice. Beneficial to pollinators and hummingbirds.
