Project Description:

For 604 W 42nd Street resident, we are planning to remove exterior rotten Masonite siding and repairing the existing wood siding underneath with same material with 1 x 6 x 16 clear pine siding. It is a Southern Yellow Pine Mill product. The exterior Masonite siding is beyond repairable and is a discontinued product, however, we are able to salvage the old wood siding underneath. We are not able to determine how much wood siding needs to be replaced without taking the old Masonite siding off. I intend to work with the staff on this matter.
Also, we are replacing the front wood door with the same size and material. New door will be a 36 x 80 wood Fir single 6-panel door.

With this project, we are aiming to achieve and create the same Cutler-Brownville Historic look.
