

209 West 33rd Street

Gutter Proposal

Current 2026

Purchased

This is the preferred option for the installation of gutters at 209 West 33rd Street. This option provides a substantial cost savings and would blend in throughout the exterior of the house with the fascia. As noted in the proposal, no historic architectural embellishments will be hidden/covered. In addition, the majority of the homes in this neighborhood have k style gutters or custom gutters, if gutters are present. Material type is white aluminum .32 gauge.

Option 1:

(Historic style) (front) Install 6-inch half-round seamless .32 gauge aluminum gutter and 4 inch round downspouts

White

Sides and back- Install 6" seamless .32 gauge aluminum k style gutter and 3x4 downspouts

White

Gutter & downspouts will be installed as shown in photos regardless of style chosen. Due to the crown design of the fascia, we believe the K style gutter will blend in best, neither gutter style will cover any of the decorative pieces on the home as they are placed beneath the fascia. K style & half round profile photos attached as well.

Option 1: 6" seamless .32 gauge aluminum K style gutter all the way around home- with 4" round downspouts in areas visible from the road & 3x4 aluminum downspouts used in back of home.

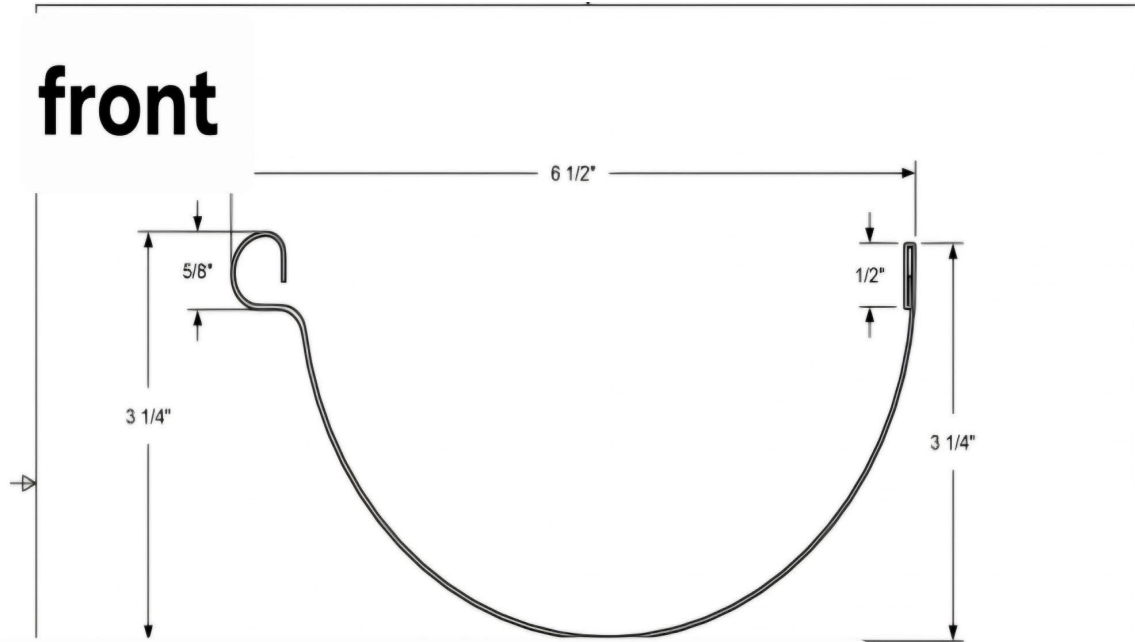

Option 2: 6" seamless .32 gauge aluminum K style gutter all the way around home- with 4" round downspouts on all areas.

Option 3: 6" seamless .32 gauge aluminum half round style gutter all the way around home- with 4" round downspouts on all areas.

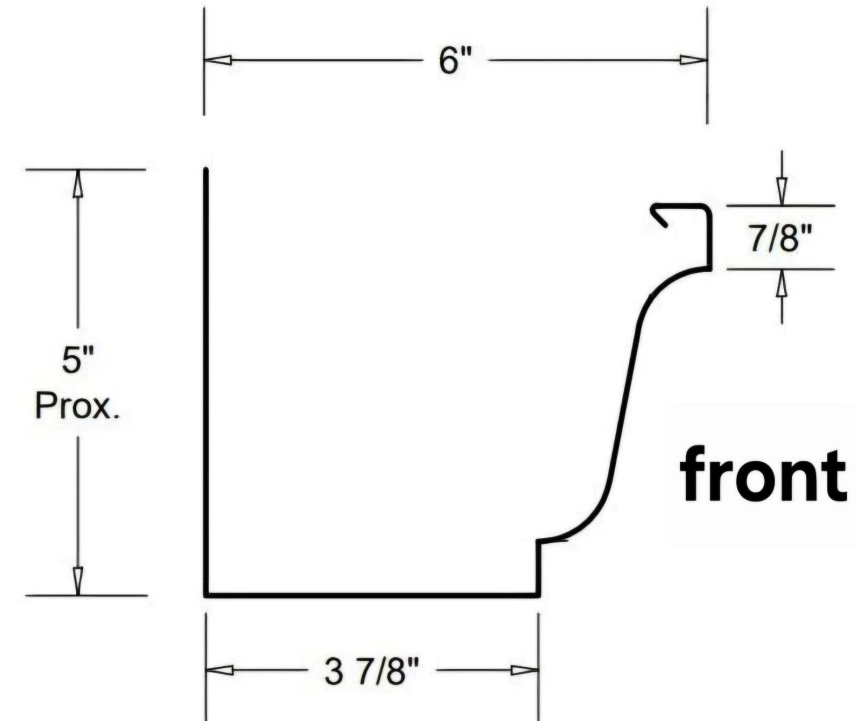

Option 4: 6" seamless .32 gauge aluminum 6" half round gutter on front of house & 6" seamless .32 gauge aluminum K style gutter on sides and back of house- with 4" round downspouts in areas visible from the road & 3x4 aluminum downspouts used in back of home

RE: 209 West 33rd Street Gutter Application

From Kaylee Johnson Date Wed 9/16/2026 9:11 AM

To Deborah Cooling

Hi Deborah, We reviewed your request for alteration yesterday at our architectural review meeting and the committee approved Option 1. Let me know if you have any questions or need anything else.

Thank you,

Kaylee Johnson
