
Re: COA application

Written Project Description: File # 21-006071-COA

Front Porch will be repaired using cement. Any loose bricks will be removed and replaced and realigned. All missing railings will be replaced in-kind wood.

Doors will be replaced via front, side and rear with steel doors, each having the same size ---36" X 80"

Windows are to be repaired, and broken panes will be replaced. Windows which cannot be repaired will be replaced with same or similar windows meeting historic approval.

Rear Deck will be constructed of wood. Description 12' X 10' raised 1'-2' above ground with 2 steps and foundation supported by concrete.

Wood Siding will be replaced with in-kind wood sidings. Siding will be stained or painted.

Roof to be replaced with standing seam metal roof over the porch and architectural shingles over the remaining roof, all rotten wood via rafters, soffit, eaves and fascia will be replaced.
