09/18/2026

Hello Everyone,

My name is Keith Mincey. I'm the homeowner of 404 East 39th Street. I took the steps down not knowing that I needed a permit to do so. To let you all know, I am building the steps back as they were, nothing different. My reason for taking the steps down was because they were sinking down causing the steps to break apart from the foundation.

The steps were 11feet 7inches wide and 8 feet 11inches long.

The new steps will be made of concrete block as they were before.

Jackson
