

Murrs Frozen Yogurt – Sign Permit Project Description

Project location: 2309 E Broad Street, Savannah, GA 34104

This proposal requests approval to install a hand-painted aluminum sign for “Murrs” a frozen yogurt business located at the above address. The sign will be mounted to project over the existing awning at the front of the building, with a clearance of 13 feet above the sidewalk grade. The sign will be constructed of durable aluminum with hand-painted lettering and graphics displaying the business name, designed to complement the existing storefront and awning rather than replace or alter them. No new structural supports beyond the awning's existing mounting points are proposed. The sign is intended to improve pedestrian visibility and wayfinding for the business while maintaining a clearance height that meets accessibility and safety standards for sidewalk clearance.

2309 E Broad Street, Savannah, GA, 34104

25 Feet wide

12.5 Feet
