

Savannah Historic District Board of Review

Arthur A. Mendonsa Hearing Room
April 8, 2026
1:00 P.M.
DECISIONS

April 8, 2026 HISTORIC District Board of Review Meeting

A Pre-Meeting was held at 12:00 PM in the Jerry Surrency Conference Room, 112 East State Street. Items on the Agenda were presented by Staff, as time permitted, and the Board asked questions. No testimony was received, and no votes were taken.

Members Present: Thomas L. Thomson, Chair
Melissa Rowan, Vice Chair
Karen Guinn
Mariel Hamer
Robert Helm
Sara Woodfield

Members Absent: Shedrick Coleman
Sabrina Nagel

MPC Staff Present: Caitlin Chamberlain, Director of Historic Preservation
Jodie Brown, Principal Planner
Alexander Merced, Planner
Rohan Urs, Planner
Bri Morgan, Administrative Assistant II
Hind Patel, Information Technology

I. CALL TO ORDER AND WELCOME

II. SIGN POSTING

III. CONSENT AGENDA

[1. Petition of Ward Architecture + Preservation, Josh Ward | 26-001289-COA | 20 West Gaston Street | Porch Screens](#)

Caitlin Chamberlain prepared the report of the applicant's request of approval to install motorized, retractable mesh insect screens on the second and third story side porches located at 20 West Gaston Street.

20 West Gaston Street was built in 1857 for William Brantley and is a contributing resource within the National Historic Landmark District and the local Savannah Downtown Historic District. It is significant in its location facing Forsyth Park as well as being credited to John S. Norris, a prolific architect in Savannah in the 1840s and 1850s. Some of his other notable Savannah buildings include the Custom House, the Green-Meldrim House and the Mercer-Williams House.

The submittal packet notes that the residence at 20 West Gaston Street “has broad side porches on the second and third floors of the east façade, which is secondary to the primary

south façade. The second-floor porch has large square stucco columns and is partially enclosed on its north end. The second-floor railing is made of wood louvers with a chamfered top rail. This porch is distinguishable from the upper porch because of the existing louvered shutters which encompass its entire south facing bay. The third-floor porch, which is not original to the house, has square wood columns with cap and base trim, its railing made of 1-inch pickets which sit on a thick base with a rounded top rail. This porch's ceiling is almost a foot lower than the porch below."

Staff recommended to approve the request to install motorized, retractable mesh insect screens on the second and third story side porches located at 20 West Gaston Street as requested because the work is visually compatible and meets the standards.

Motion

The Savannah Historic District Board of Review does hereby approve the request to install motorized, retractable mesh insect screens on the second and third story side porches located at 20 West Gaston Street as requested because the work is visually compatible and meets the standards.

[2. Petition of Greenline Architecture Keith Howington | 26-001297-COA | 121 West Broughton Street | Color Change & Alterations](#)

Alexander Merced prepared the report of the applicant's request to alter the ground level storefront, repair deteriorated wood trim in-kind, and change the color scheme of the building.

The building was constructed in 1889 and is a contributing resource within the National Historic Landmark District and the local Savannah Downtown Historic District. The building sits on a block comprised almost completely of contributing buildings and is part of the main shopping district along Broughton Street downtown.

The façade has been altered numerous times over the years, including the entire Broughton façade being covered by concrete at some point in the 1950's or 60's, and the Barnard Street windows being filled in sometime after that. The concrete façade was removed at some point in the 1980's or 90's to reveal the original historic façade and the Barnard Street windows were reopened and altered shortly after. The ground floor retail space has held many different businesses over the years, including the old Hogan's Department Store, Lynn's Appliance Service Corporation, and, most recently, Banana Republic.

Staff recommended to approve the work proposed for 121-125 West Broughton Street as

requested because it is visually compatible and meets the standards.

Motion

The Savannah District Board of Review does hereby approve the work proposed for 121-125 West Broughton Street as requested because it is visually compatible and meets the standards.

[3. Petition of Rose Architects, Kevin Rose | 26-001278-COA | 111 West Congress Street | Illuminated sign amendment](#)

Rohan Urs prepared the report for the petitioner's request regarding 111 West Congress Street approval for an amendment to a previously approved Certificate of Appropriateness to modify an existing marquee sign. The proposed amendment includes the addition of a business logo to the front face and side panels of the marquee. The previously approved marquee dimensions, projection, and placement remain unchanged.

The subject property is located along West Congress Street within the Savannah Downtown Historic District. The surrounding context is characterized by a continuous commercial streetscape with a mix of storefront signage types, including wall, projecting, and marquee signs. The subject building is a non-contributing resource within a highly active pedestrian corridor.

The Historic District Board of Review previously approved a Certificate of Appropriateness for the installation of a marquee sign at this location under File No. 22-004373-COA. As part of that approval, a variance was recommended to allow the marquee to be installed below the minimum required clearance. The Board also required additional information regarding sign illumination prior to installation. The current request is limited to modifications to the sign face and provides illumination details not previously included.

Staff recommended to approve the amendment to the previously approved marquee sign at 111 West Congress Street, as requested, as the proposal is visually compatible and consistent with the applicable standards of the Downtown Historic Sign District.

Motion

The Savannah Historic District Board of Review does hereby approve the amendment to the previously approved marquee sign at 111 West Congress Street, as requested, as the proposal is visually compatible

and consistent with the applicable standards of the Downtown Historic Sign District.

[4. Petition of KPC Signs LLC | 26-001236-COA | 24 East Broughton Street | Illuminated Sign](#)

Jodie Brown prepared the report for the applicant's proposal to install a 3D white face lit channel letters on a blue non-illuminated pan wall sign.

Located midblock on the north side of the street, the building is in the Derby Ward. The building is a Two-Part Commercial building constructed in 1921. The building features two-stories with a brick exterior. The varied parapet replicates a low sloped gable roof at the middle. The first floor has two storefronts with angled recessed entries while the second floor has six (6) arched windows. Within each arched window opening is a pair of double hung windows.

The subject building is a contributing resource within the National Historic Landmark District and the local Savannah Downtown Historic District.

Staff recommended to approve the request to install one (1) illuminated wall sign for the business located at 24 East Broughton Street AS REQUESTED because the project is visually compatible and meets the standards.

Motion

STAFF RECOMMENDATION:

APPROVE the request to install one (1) illuminated wall sign for the business located at 24 East Broughton Street AS REQUESTED because the project is visually compatible and meets the standards.

[5. Petition of Hansen Architects, Patrick Phelps | 26-001292-COA | 220 East Bryan Street | Fence](#)

**This item was heard on the regular agenda at the request of Sara Woodfield.

Jodie Brown presented the report for the applicant's request to construct a fence along East Bryan Street and East Bay Lane between 18 Abercorn Street and 220 East Bryan Street.

The subject property at 220 East Bryan was approved for construction in 2022 (22-002279 COA). The new building is located mid-block on the north side of the street in the Reynolds Ward. The building is east of Christ Church Parish House at 18 Abercorn Street and west of 226 East Bryan Street both of which are listed as contributors to the district. Just to the south is a full block, non-contributing, 6-story building.

The subject building is a non-contributing resource within the National Historic Landmark District and the local Savannah Downtown Historic District.

Staff recommended to APPROVE the request for an aluminum picket fence between 18 Abercorn and 220 East Bryan Streets on the property at 220 East Bryan Street AS REQUESTED because the work is visually compatible and meets the Standards.

Motion

STAFF RECOMMENDATION:

APPROVE the request for an aluminum picket fence between 18 Abercorn and 220 East Bryan Streets on the property at 220 East Bryan Street AS REQUESTED because the work is visually compatible and meets the Standards.

[7. Petition of Hansen Architects, Patrick Phelps | 26-001293-COA | 350 Bull Street | Rehabilitation & Alterations](#)

Jodie Brown prepared the report of the applicant's request of approval for a rehabilitation and alterations project on the building located at 350 Bull Street, also referred to as Morris Hall of the Savannah College of Art and Design. The project seeks to return a storefront configuration to the building. The scope of work includes the removal of four (4) windows on the left side of the front elevation and door system of front entrance, to replace with a custom fabricated three-bay wood storefront and new custom wood door within the existing openings, with paint to match existing.

350 Bull Street is partially contributing, with the main part of the building constructed circa 1853, and the smaller addition is noted as non-contributing. The non-contributing part of the building connects to the larger portion of Morris Hall, at 2-4 East Jones Street.

The building has undergone a variety of alterations over time and based on historic photos provided in the application, the façade where the work is proposed is among the areas with the changes. The Sanborn Maps help tell the story of the evolution of the building. It is

attributed to renowned architect John S. Norris, where the main portion of the building faces Jones Street. The small rear area on the building was functioning as a confectionary in 1888, was a dwelling by 1898, and then noted as a shop in 1916. It is not until the 1950 map that the middle section is seen. It remained unchanged through the 1973 map.

Staff recommended to approve the request for a rehabilitation and alterations project on the building located at 350 Bull Street as requested because the work is visually compatible and meets the standards.

Motion

The Savannah Historic Preservation Commission does hereby approve the request for a rehabilitation and alterations project on the building located at 350 Bull Street as requested because the work is visually compatible and meets the standards.

[8. Petition of Robert Johns | 25-006062-COA | 207 Bull Street |Alteration - ADA Ramp](#)

Jodie Brown prepared the report for the applicant's request of approval for the installation of an exterior ADA accessible ramp at the front entry of the Independent Presbyterian Church building. The proposed ramp wraps along the Oglethorpe Lane side of the structure with a single switchback configuration and includes associated landscape modifications.

The subject property is a contributing historic church located within the Savannah Downtown Historic District. The building is characterized by a prominent front façade with a symmetrical composition, arched openings, and classical detailing. The surrounding context includes civic and institutional structures with strong architectural presence. The proposed ramp is primarily oriented along the lane side of the building and has the shorter side visible from the primary street frontage.

Staff recommended to approve the request for an exterior ADA ramp at the Independent Presbyterian Church, as requested, as the proposed design is visually compatible and meets the standards.

Motion

The Savannah Historic District Board of Review does hereby approve the request for an exterior ADA ramp at the Independent Presbyterian Church, as requested, as the proposed design is visually compatible and meets

the standards.

VIII. REQUEST FOR EXTENSION

IX. REGULAR AGENDA

[12. Petition of J. Elder Studio, Jerome Elder | 26-001298-COA | 200 West Bryan Street | Illuminated Signs](#)

Caitlin Chamberlain presented the report for the applicant's request of approval to install a total of three (3) illuminated wall and above-canopy signs for the Digby Hotel, located at 200 West Bryan Street.

200 West Bryan Street is a newly constructed hotel and thus is a non-contributing resource within the National Historic Landmark District and the local Savannah Downtown Historic District. The building is in a heavily commercial area in the Ellis Square vicinity where there are commercial businesses and other hotels in the immediate area.

Staff recommended to approve the request to install the two (2) illuminated wall signs at the Digby Hotel, located at 200 West Bryan Street with the following condition because the proposed work is otherwise visually compatible and meets the standards:

1. Apply for a variance to allow for illumination of the above-canopy sign or change it to a non-illuminated sign.

Motion

The Savannah Historic District Board of Review does hereby approve the request to install the two (2) illuminated wall signs at the Digby Hotel, located at 200 West Bryan Street with the following condition because the proposed work is otherwise visually compatible and meets the standards:

1. Apply for a variance to allow for illumination of the above-canopy sign, or change it to a non-illuminated sign.

[13. Petition of Speedi Signs, Flint North | 26-001295-COA | 127 North Fahm Street | Illuminated & Non-Illuminated Signs](#)

Alexander Merced prepared the report for the applicant's request to install illuminated and non-illuminated signage on two brick façades of the building at 127 Fahm Street.

The building was constructed between 2013-2015 and is a non-contributing resource within the local Savannah Downtown Historic District. Most recently a Family Dollar, it sits across from two 1960's buildings that have been designated contributing: the 1965 Greyhound bus station, and the 1964 Thunderbird Inn motel, to the east and southeast respectively. Aside from these relatively modern structures, it sits in a mostly non-contributing and non-residential area off of downtown, including a vacant lot to the south, and a gas station to the west.

Staff recommended to continue the proposed signage project for 127 Fahm Street to the May 13, 2026, Historic District Board of Review meeting in order to allow the applicant time to apply for the necessary variance to increase the number of wall signs.

Motion

The Savannah Historic District Board of Review does hereby approve the Oglethorpe elevation signage and the "Resource Center" sign on the Fahm elevation because they are visually compatible and meet the standards, and does hereby continue the "Union Mission – Parkers" sign to the May 13, 2026, Historic District Board of Review meeting in order to allow the applicant time to apply and receive the necessary variance.

[14. Petition of Ward Architecture + Preservation, Josh Ward | 26-001290-COA | 402 East Liberty Street | ADU Construction](#)

Caitlin Chamberlin presented the report for the applicant's request of approval to construct an accessory dwelling unit at the rear of 402 East Liberty Street. The project also includes the removal of a non-contributing carport and a non-historic wood fence, with a replacement 8' brick garden wall and wooden gate, as well as the removal of non-historic lap siding infill on the rear elevation, to be replaced with brick to match.

402 East Liberty Street was built in 1882 and is a contributing resource within the National Historic Landmark District and the local Savannah Downtown Historic District. It is the end unit of a row of six connected Italianate style rowhomes. The building directly next door, at 404 East Liberty Street, has a similar ADU project proposed. This is intentional, as both owners have agreed to having the connected ADUs constructed together. There is a non-contributing parking structure composed of metal poles supporting a roof, which functions as a parking area, but will be removed to make space for the ADU. Along the lane are various other non-contributing resources in the form of ADUs or one-story garages, with the one exception being 242 Habersham Street, which is on a corner lot and across the lane from 402 East Liberty Street.

Staff recommended to approve the request to construct an accessory dwelling unit and brick garden wall at 402 East Liberty Street, including removal of the non-contributing carport and non-contributing fence, as well as removal of the non-historic lap siding infill to replace with recessed brick infill on the rear elevation, as requested because the proposed work is visually compatible and meets the standards.

Motion

The Savannah Historic District Board of Review does hereby approve the request to construct an accessory dwelling unit and brick garden wall at 402 East Liberty Street, including removal of the non-contributing carport and non-contributing fence, as well as removal of the non-historic lap siding infill to replace with recessed brick infill on the rear elevation, with the following conditions because the proposed work is otherwise visually compatible and meets the standards:

- 1.Remove false windows and shutters to simplify the design and be more visually compatible.
- 2.Redesign transom window above the door on the south elevation to simply the design and be more visually compatible.

[15. Petition of Ward Architecture + Preservation, Josh Ward | 26-001288-COA | 404 East Liberty Street | ADU Construction](#)

Alexander Merced presented the report of the applicant's request to construct a new two-story carriage house with an accessory dwelling unit on the lane behind 404 East Liberty Street. This application has been submitted in conjunction with the nearly identical application for 402 East Liberty Street immediately next door which also seeks to build a new two-story carriage house with an accessory dwelling unit. These two proposed units will be connected, as the owners of each property agreed to build at the same time with the same contractor, and the units are intended to read as architecturally unified, similar to the primary structures on each property. It should also be noted that the application includes the demolition of the current non-contributing and non-significant cinderblock two-car garage on the lane.

The building was constructed in 1882 and is a contributing resource within the National Historic Landmark District and the local Savannah Downtown Historic District. It is part of a set of connected rowhouses built in the Italianate style in the 1880's, all of which are contributing. The lane behind the house has no contributing secondary structures, although there are four other ADU carriage houses in addition to numerous other non-contributing garage structures. With that being said, the proposed ADU would be visually related to 242 Habersham Street, a contributing rowhouse which fronts Habersham but abuts the lane immediately across from the proposed ADU

Staff recommended to approve the proposed accessory dwelling unit for 404 East Liberty Street as requested because the work is visually compatible and meets the standards.

Motion

The Savannah Historic District Board of Review does hereby approve the proposed accessory dwelling unit for 404 East Liberty Street with the following conditions:

- Change the color of the bay window to match the color of the garage door
- Align the lane facing windows above the doors

because the work is otherwise visually compatible and meets the standards.

[16. Petition of Rose Architecture, Kevin Rose | 25-005674-COA | 402 East Broughton Street | New Construction, Part 1 and Special Exception Requests](#)

Jodie Brown presented the report of the applicant's proposal to construct a multi-story building. This is a Part 1 review of the project which includes review of three (3) Special Exceptions requests.

The existing building was approved for demolition at the September 2025 HDBR meeting. It was built in 1966 and received a new façade in 1985. It is located on the northeast corner of Broughton and Habersham Streets. The one-story concrete block building has plate glass windows and a cantilevered awning. It housed Southern Motors for several years.

Prior to the extant building, there were number of iterations of buildings at the site. In 1884, there was a 2-story dwelling at the corner with a barn/dwelling along the rear lot line. By 1898, the dwelling had been modified with bay windows and covered porches. By 1916, the area had been converted to multiple store fronts along both Broughton and Habersham Streets with dwellings along the rear property line. In 1950, all of the lots were used for laundry and dry-cleaning service. The corner lots were 3-stories while the area that was previously open was one-story.

The subject building is listed as a non-contributing resource within the National Historic Landmark District and the local Savannah Downtown Historic District.

This project was previously heard at the February 11, 2026, hearing and continued to allow the applicant to:

1. *Evaluate the code sections associated with Multiple Volumes, Roofline Variation, Setback Standard and Recess Standard to ensure that at least two of these design elements are incorporated into the building proposal.*

The applicant re-evaluated the potential design elements and redesigned the structure to incorporate two of them. The applicant incorporated Roofline Variation and Recess Standard into the revised design. The design elements will be discussed below under the applicable code section.

2. *Verify the exterior dimensions of the proposed building.*

The applicant verified the length and width of the proposed building to ensure that it was 90' x 120'.

3. *Apply for the Special Exceptions prior to the Part 2 review.*

The applicant applied for three Special Exceptions which will be discussed in further detail below.

Staff recommended to approve the request for New Construction, Part I: Height and Mass at 402 East Broughton Street AS REQUESTED, because the work is visually compatible and

meets the standards.

AND

APPROVE the Special Exception requests from the standards that reads:

- §7.8.10.r.ii—Vehicular access shall be from lanes or north-south service streets. When a property does not front a lane or north-south service street, parking may be accessed from east-west connecting streets or trust streets.
- §7.8.10.r.iii—Structured parking within the first story of a building shall be setback a minimum of 30 feet from property lines along all public rights-of-way (not including lanes). This standard does not apply to structured parking on the same lot as single [family](#) and two family residential dwellings that are either on a [corner lot](#) with lane access or on a parcel that does not have access to a lane.
- §7.8.10.t.v.1—Maximum height shall not exceed two (2) stories within 20 feet of a lane when across the lane from a D-N and/or a D-R zoning district.

to allow for vehicular access from Broughton Street, to allow for parking within 30' of the property line and to allow for elimination of the two (2) story requirement along the lane, because the Special Exception criteria are met.

Motion

STAFF RECOMMENDATION:

APPROVE the request for New Construction, Part I: Height and Mass at 402 East Broughton Street AS REQUESTED, because the work is visually compatible and meets the standards.

AND

APPROVE the Special Exception requests from the standards that reads:

§7.8.10.r.ii—Vehicular access shall be from lanes or north-south service streets. When a property does not front a lane or north-south service street, parking may be accessed from east-west connecting streets or trust streets.

§7.8.10.r.iii—Structured parking within the first story of a building shall be setback a minimum of 30 feet from property lines along all public rights-of-way (not including lanes). This standard does not apply to structured parking on the same lot as single family and two family residential dwellings that are either on a corner lot with lane access or on a parcel that does not have access to a lane.

§7.8.10.t.v.1—Maximum height shall not exceed two (2) stories within 20 feet of a lane when across the lane from a D-N and/or a D-R zoning district.

to allow for vehicular access from Broughton Street, to allow for parking within 30’ of the property line and to allow for elimination of the two (2) story requirement along the lane, because the Special Exception criteria are met.
