Subject: HSF Official Public Comment- 100 E Bay

Hi Caitlin,

I am submitting this comment on behalf of HSF to be attached to the HDBR official agenda.

Public Testimony for 100 E Bay Street

We want to first thank J. Elder Studio for presenting this proposal to HSF's Architectural Review Committee.

HSF finds this proposal to be both appropriate and elegantly designed. We believe that the thoughtful alterations integrate very well with the historic building and do not detract from its character. This is a very exciting project, and we are happy to see much needed investment bring this building back to life.

Thank you,

Kaylee Johnson
