RE: Petition

WSRP Charrette Planning Project to Improve Housing for Augusta Avenue Corridor

The neighborhood of West Savannah residents vision planning expressed started a process in 2005 with hope for development to implement better housing, parks, and businesses from analysis vision during public meetings and workshops at the Moses Jackson Center consultation firm Goody, Clancy & Associates presented to Public Development for the community.

Special Land Use Proposal:

The property located at 2305 Augusta Avenue in West Savannah on 10—12 acres of prime real-estate with beautiful aged Oaks Trees sits in the West Savannah Corridor is to be revitalized by HUD to Salvation Army's Shelter Project for ex: emergency beds; temporary housing; est. 180-190 men and women; time limitations; undergo process of transition.

Resolution:

Therefore, West Savannah residents and we the undersign affix our name due to longevity of wavering Charrette Planning Workshop project agenda, i.e. Kroger Store, residential housing, more trees and flowers, places for kids to have fun w/activities, crosswalk lines, retail plaza businesses, etc. in the West Savannah Corridor; such that respectfully in conclusion do not recommend the new project approval at this time.
